

Color

Artists organize the colors of the rainbow in a color wheel.
The color wheel helps them see how colors mix together.

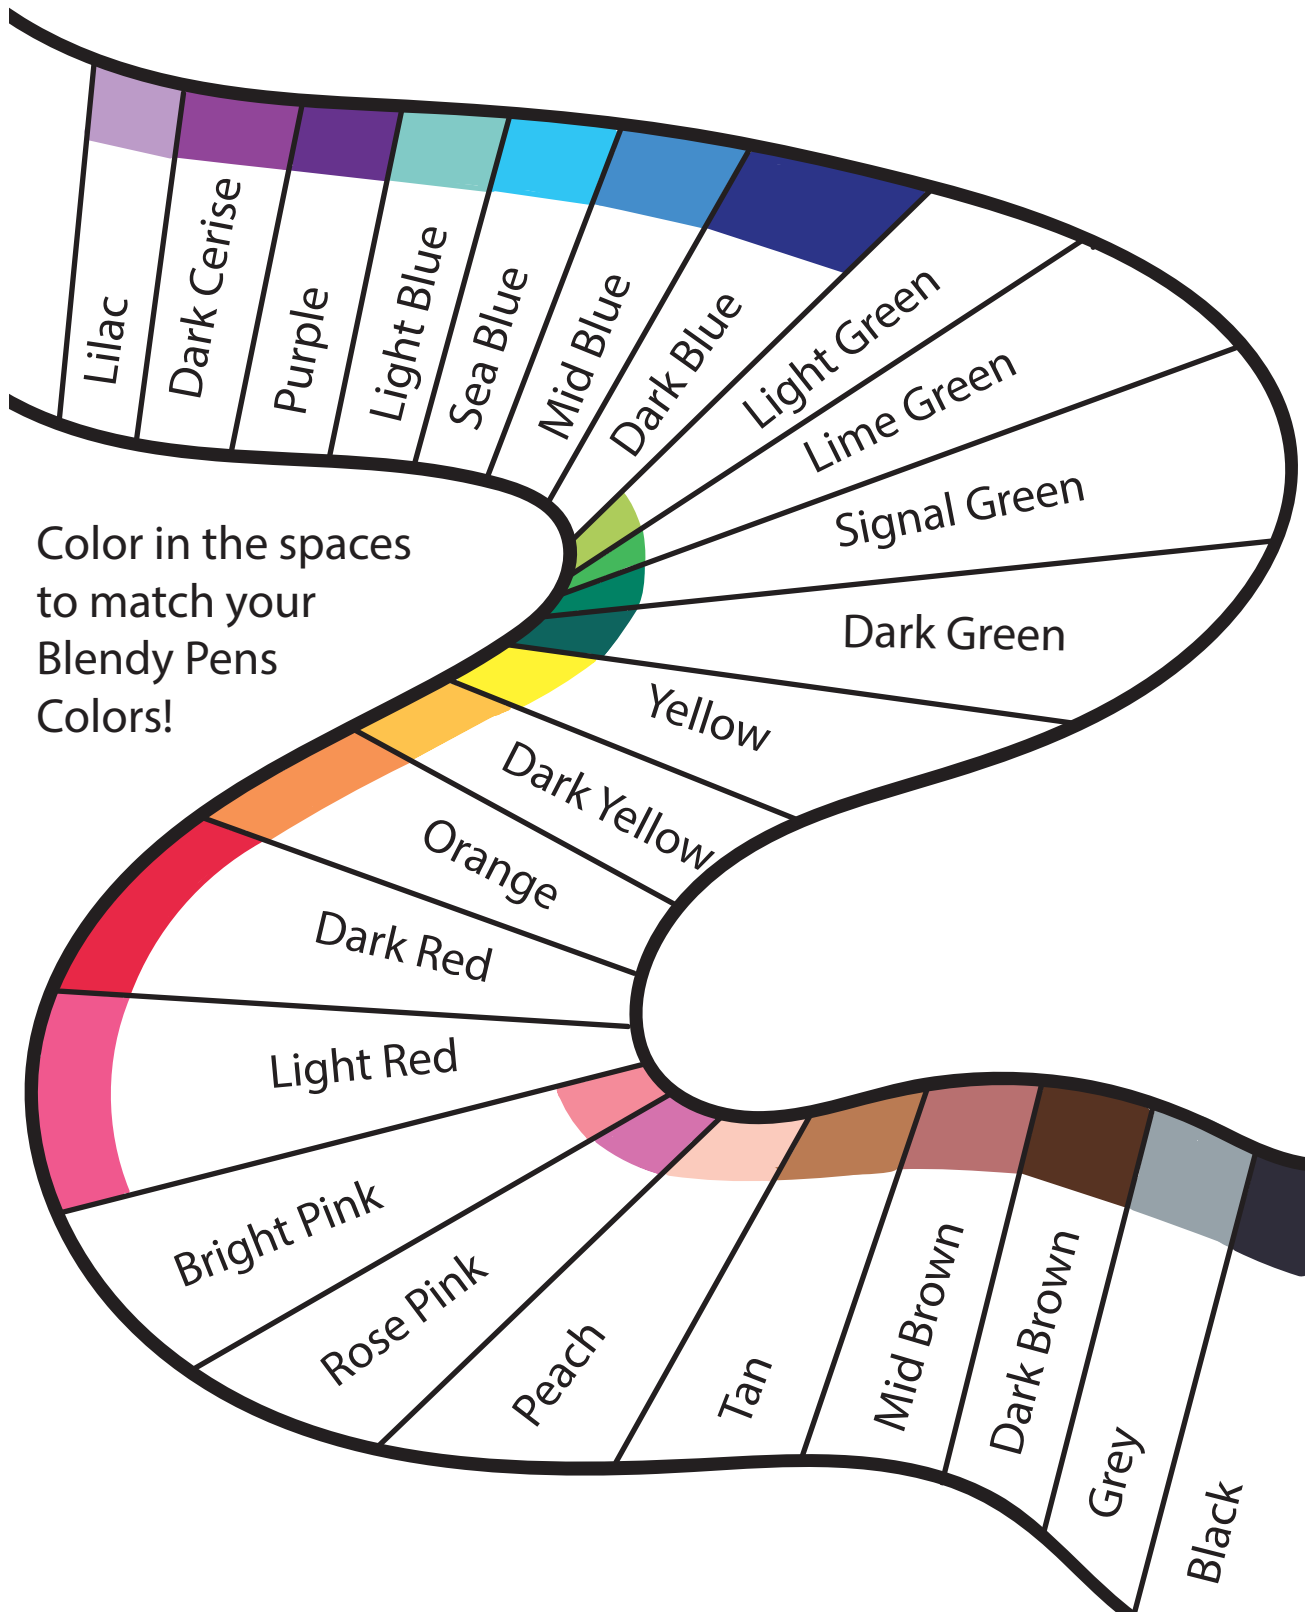

RED, **YELLOW** and **BLUE**
are the 3 **primary colors**.

2 primary colors
mixed together
make a **secondary color** .
The secondary colors are
PURPLE, **ORANGE** and **GREEN**.

The color wheel can be cut into
cool colors
(**GREEN**, **PURPLE** and **BLUE**) and
warm colors
(**YELLOW**, **ORANGE** and **RED**).

Complementary Colors

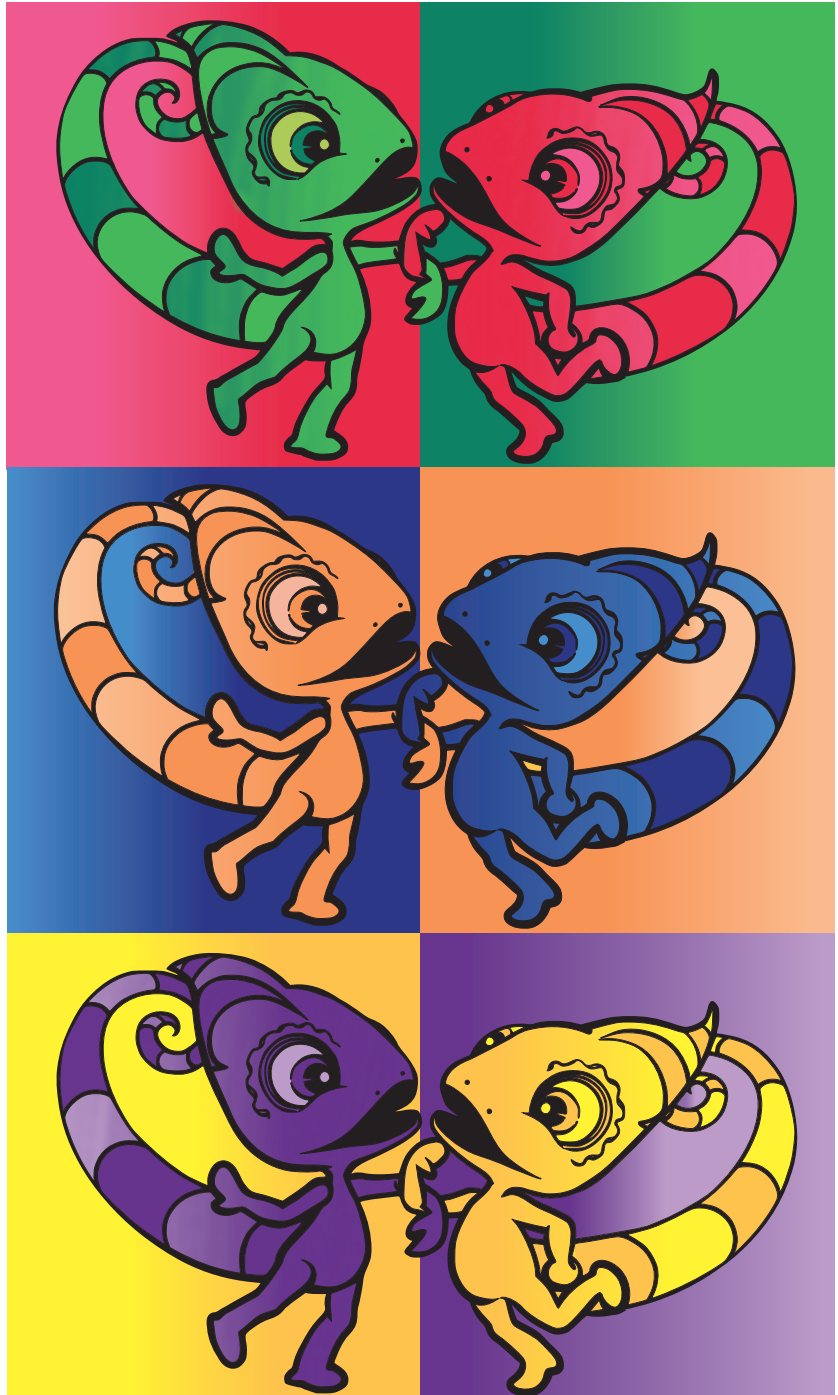

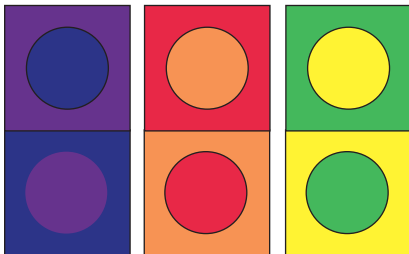

Complementary colors are best friends!
They make each other brighter!

They are on opposite sides of the color wheel. They create a **high contrast**, like black and white.

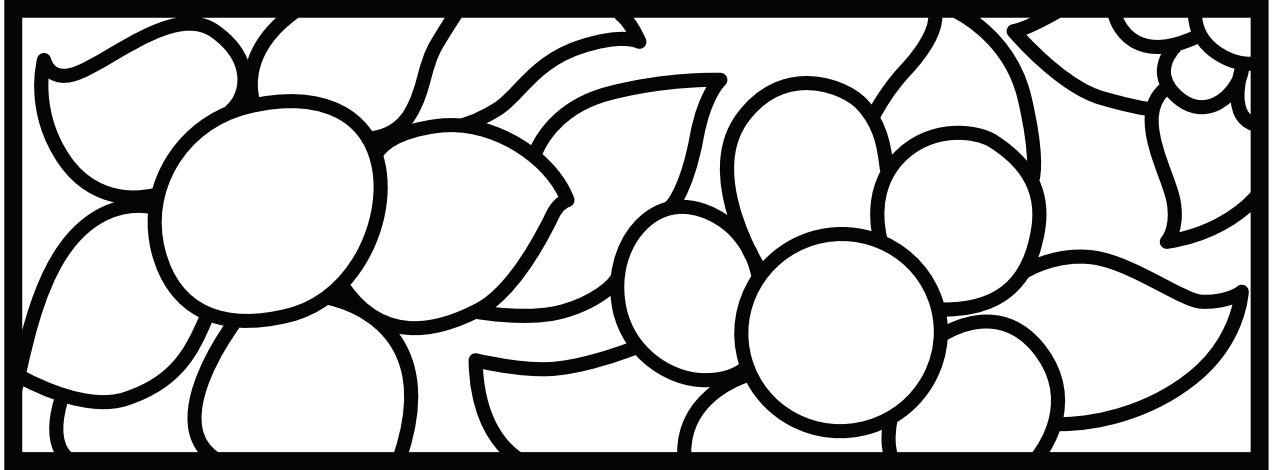

Colors that are neighbors on the color wheel create a **low contrast**.

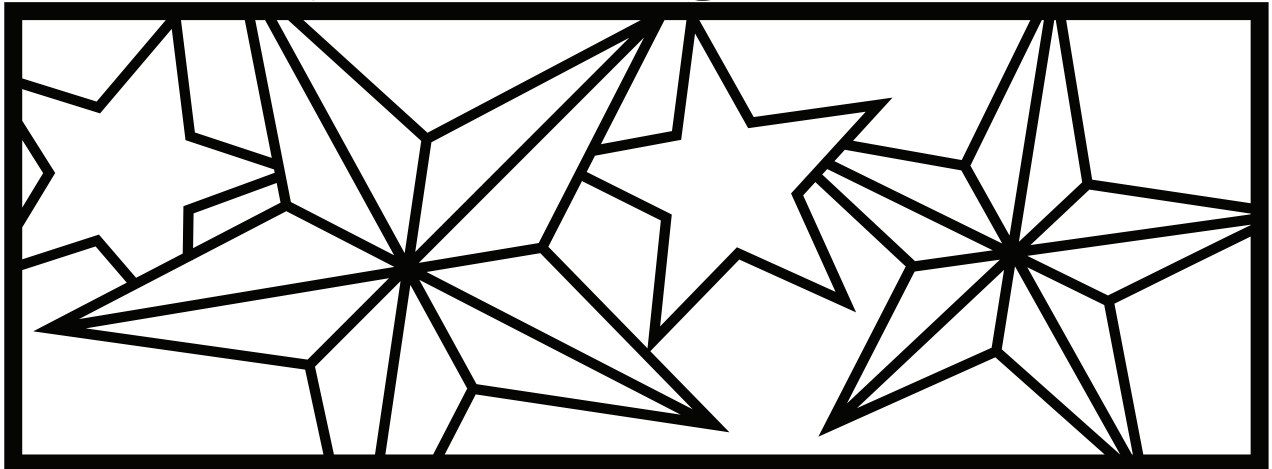

Color in the pictures in complementary colors.

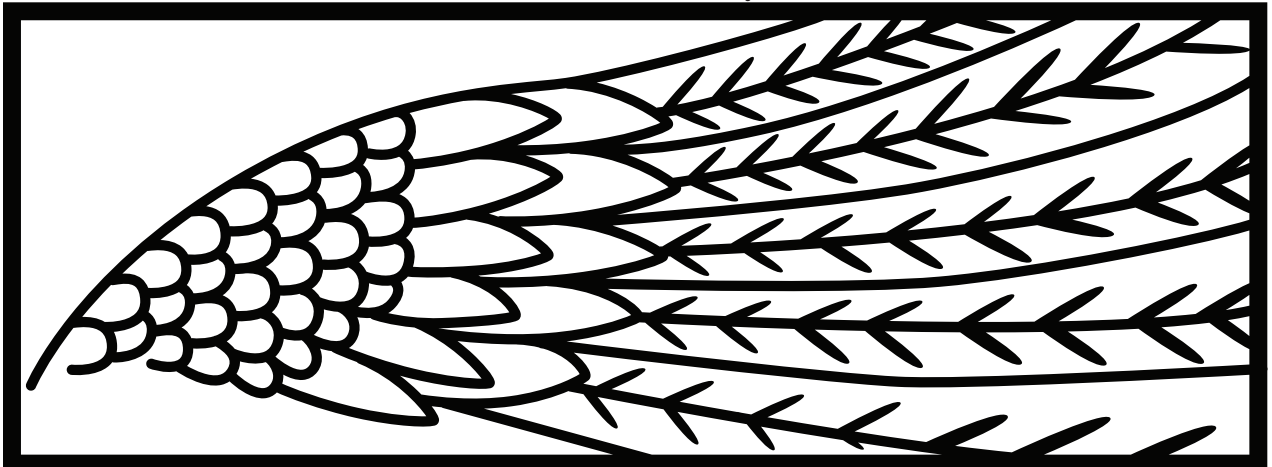

Red and Green!

Blue and Orange!

Purple and Yellow!

Cool and Warm Colors

Cool Colors

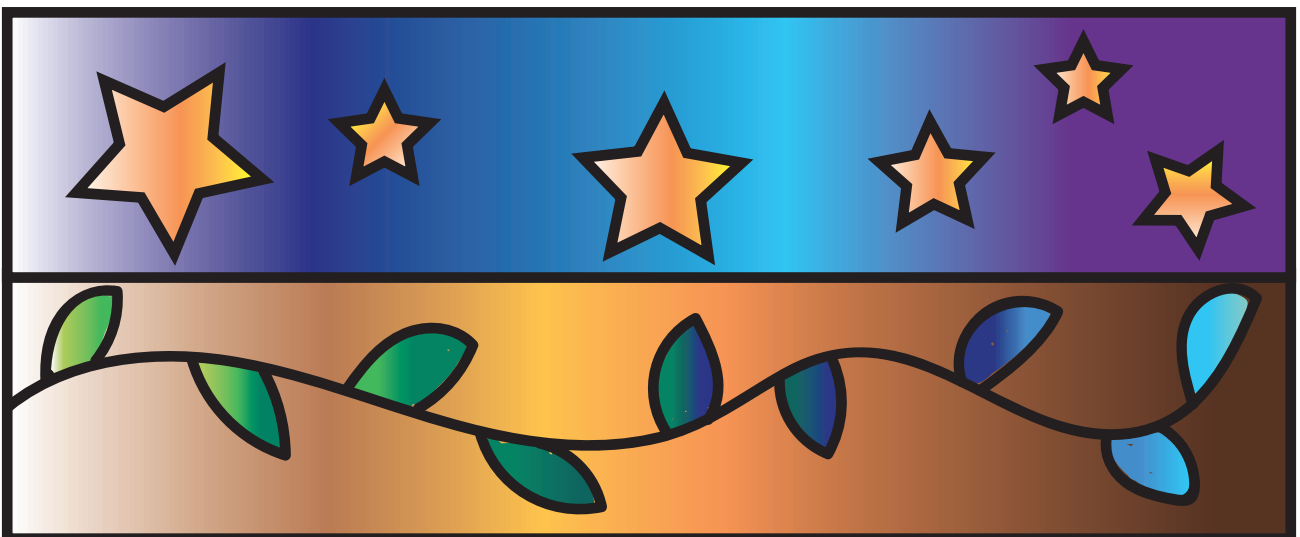

Warm Colors

Creating drawings with cool and warm colors.

Did you know that colors move? Cool colors recede (move back) and warm colors advance (move forward). Combining the two creates a drawing that moves!

Your turn!

Create a drawing in cool colors.

Use your cool color Blendy Pens to make cool color blends!

Create a drawing in warm colors.

Use your warm color Blendy Pens to make warm color blends!

Create a Blendy Pens drawing in cool and warm colors!
